Movement for Peace, Equality & Justice, has said that the main cause behind the prevailing situation in India in general & J&K State in particular is that the people of the country have become fed up with the present set of administration in terms of the corruption leading to the people getting indulged in militancy, the drug smuggling, the adulteration in food items, the fake medicines, price rise & above the level of corruption practice prevailing in the government departments.

They further added that there is huge disparity in the distribution of funds so far as the regions of Jammu & Kashmir are concerned.

The funds allocated to Kashmir region is also not uniformly utilized but major portion of these funds go to the pockets of influential & political leaders of Kashmir, rendering the poor people of Kashmir helpless.

The youth of the Kashmir have always been exploited by vested interests for their personal interests as there are such 1% elements in Kashmir who are bent upon provoking the innocent people for their vested interests in Kashmir while as their own children are living & studying outside the state and enjoying a luxurious life there without caring for the poor people of the Kashmir.

They further said that Mehbooba Mufti's remarks when she was MP, was the outcome of deep observation and experience "that in India, Muslims are free and safe because of Hindus who have always been tolerant.

It is the only country where Muslims can breathe in free air as compared to other so called Islamic Countries like Syria, Pakistan or Afghanistan etc where one sect of Muslims kill another sect of Muslims every hour but no one can complain and it is only in India that an iota of injustice done to Muslims by mistake invites a great resentment both as from Muslims and from Hindus. Then how is it that intolerance is prevalent in India than in any Muslim country? And all this propaganda is spread by defeated politicians who want to fish in troubled water."

The members while welcoming the above statement said that it is the real face of Kashmir politics because Mehbooba Mufti is now in power. On the other hand Farooq Abdullah, when in power used to talk of Kashmir as an integral part of India.

The languages of Kashmiri politicians always differ in Kashmir and out of Kashmir; when they are in power and out of power. Such persons/parties are not worth to be considered but to be thrown to dust and ashes. The Public of all the three regions want corruption free Government & they have nothing to do with Art.370/ Autonomy/Self Rule etc because no Hindu/ Muslim / Christian are safe in this corrupt & religion base political system.
